Duty, to do something, pay, bityiitda; áhte gieldenne fíf hund surrender the 500 was one of the coin; 5 peninges. The possessor of something, endow with; pé IC, I will always give you a building in ágan; [ágan 12 Anglo-Saxon, the first - is a verb - ágan, cunnan, dukan, durran, magan, mótan, munan, nukan, sculan, because they and their inflections and completed the present tense of a verb infinitive they take the new þurfan, Unnan, witan, preterite is called - and gifts. Supine on a regular basis, these new, depending on their past tense form weak conjugations. Therefore, the new ágan infinitive in the current IC, the attitude, þu Aht, pl ágon; past áhte, pl áhton said. Ágan and the current position of the infinitive, pl ágon [igon a], maintain the preterite inflections, in the preterite of strong verbs, in the position ascertained [Goat will. aih], which shows one picture of the strong verbs of the class of the division of the 8 singular, the verb in the same class with the other required by inference, Infinitives ígan, the multiple igon, and past participle igen. We find that the original verb ígan; past position / igon; PTP igen. But in the singular ágan indefinites, revenge and the past participle of the infinitive to keep. Weak elderly áhte = past, plural áhton = ágdon, are regularly formed from the weak ágan infinitive.]; 6. Pret 3 onginnan song
